

Pupil premium strategy statement

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

Our Federation Vision

The Governing Body and entire staff team believe that it is a privilege to educate and nurture the children in our schools. Through the establishment of high expectations of behaviour and academic excellence the school aims to prepare children for their future at high school and for life.

Our vision starts with the high expectation that all children have potential talents that require a safe learning environment where learners boldly attempt new challenges and take risks with confidence. Our educational teams across the schools and age ranges are passionate about children's literature and engendering a love of reading and learning. The importance of the Arts within the curriculum is part of our vision to provide a rich, creative and experiential sequence of learning for all children in a school environment that promotes respect and tolerance.

We are proud to be two closely aligned Church of England primary schools who serve the local community where we value all children and the role of the parents to support a love of lifelong learning.

Addressing Disadvantage through Respect and Inclusion

At the SJC Federation, the '*Celebration of Diversity*' and the ambitious '*Aspirations*' we hold for all pupils, are written into our curriculum intention through our four cornerstones. We are an inclusive federation, where respect is a core value: '*Respect Yourself, Respect Others, Respect Property*' are our school rules. As such, we believe that it is vital for our disadvantaged and vulnerable pupils to mingle, unidentified. We have therefore deliberately chosen an approach in which those disadvantaged pupils, who are eligible for the Pupil Premium Grant, access an inclusive, broad and balanced curriculum through quality first teaching alongside their peers.

Our strategy focuses on the development of an effective and financially sustainable staffing structure, and the recruitment, deployment and continuous professional development of exceptional educators – leaders, teachers and teaching assistants. We adopt evidence-based pedagogies and resources, which enable us to provide an outstanding standard of education for all pupils through quality-first whole class teaching approaches, alongside high-impact targeted interventions for those eligible for the Pupil Premium Grant.

We aim to improve the educational outcomes for our disadvantaged pupils; close the attainment gap between them and their peers; and ensure that they are extremely well prepared for the next stage in their education and their future lives as British citizens. In this way, we are addressing social disadvantage at our inner-city schools.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	In-school barrier-Families live in an area of high deprivation and some children have a narrow sphere of experience.
2	In-school barrier- Significant language barriers result from high numbers of EAL (73%) and a wide variety of pupil nationalities (98.5% Non-White British). Higher-level language acquisition (required to access KS2 National Curriculum) for Non-EAL pupils is affected by a paucity of peer role models and wider life experiences that build cultural capital.
3	In-school barrier- High mobility results in PP children arriving after EYFS and therefore missing the essential foundations of education.
4.	Catch-up programme – school Led Tutoring for Year 6 and EAL
5	External barrier- Parental language barriers and cultural differences in educational expectations can make it more difficult for parents to support academic achievement at home.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
EYFS To improve children's oracy in EYFS Narrow the gap between disadvantaged pupils and non-disadvantaged pupils' achievement in achieving GLD by the end of EYFS, focusing on 'number' and 'numerical patterns'.	PP children are KS1 ready PP children have a life skill which is pivotal in improving educational outcomes, economic viability, literacy, and emotional skills as well as developing personal development (well-being, self-esteem, confidence, citizenship). The ability to communicate effectively is a fundamental ingredient to success in both early years and beyond.
Narrow the gap between Pupil Premium and Non-Pupil Premium attainment in KS1	PP achieve as well as non-PP children in core subjects in KS1 with a focus on Reading and Writing
Targeted interventions for all year groups including INA	Accelerated progress for children in receipt of interventions and other targeted support.
Ensure PP children achieve exceptionally well at KS2 in Reading, Writing and Maths	PP children are secondary ready and meet age related expectations in Reading, Writing, Maths combined
Ensure challenge for the more able	Greater proportions of PP children achieve GD
Increased engagement with home learning	Parents to encourage their children to participate

	in home learning especially with regards to reading daily.
Attendance-establish good attitudes to attendance and punctuality from EYFS	Overall attendance for disadvantaged pupils including EYFS is at/greater than 96%
Enrichment and increase in cultural capital	Maintain and increase access and participation in the wider curriculum. Book looks show children are using language and vocabulary across the curriculum.
Reduce the impact of mobility on PPG outcome	Transition procedures ensure all disadvantaged pupils new to the school are well supported and safeguarding procedures for those leaving the school are robust with all forwarding documentation in place. Mixed year groups in KS1 and Lower KS2 reduce the impact of mobility.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.
